## **1. INTRODUCTION & BACKGROUND**

The Housing Development Agency (HDA) is a national public development agency established by an Act of Parliament (Act 23 of 2008). The HDA promotes sustainable communities by making well-located land and buildings available for the development of housing and human settlements. As an organ of state, the HDA is accountable through its board to the Minister of Human Settlements. Visit [www.thehda.co.za](http://www.thehda.co.za) for more information.

As part of the Housing Development Agency's (HDA) legislative mandate to develop sustainable human settlements, the Housing Development Agency together with Mangaung Municipality and the Free State Province have acquired various land parcels in Estoire Bloemfontein

This project is part of the Priority Integrated Housing Programmes of the Province, aimed at addressing past spatial injustices. After completion, the project promises to deliver approximately 5576 housing opportunities. The proposed project is a Brownfield development that will create a regional integration of North and south Bloemfontein. And other developments along the N8 corridor such as the Airport Node and raceway, the site is earmarked for future residential, Industrial and mixed-use development.

Subsequent to the acquisition, the HDA have undertaken an Urban Design Framework on Estoire settlements. Combined, the plots are 191.4 ha in extent, made up of: the following

**AREA DESCRIPTION**

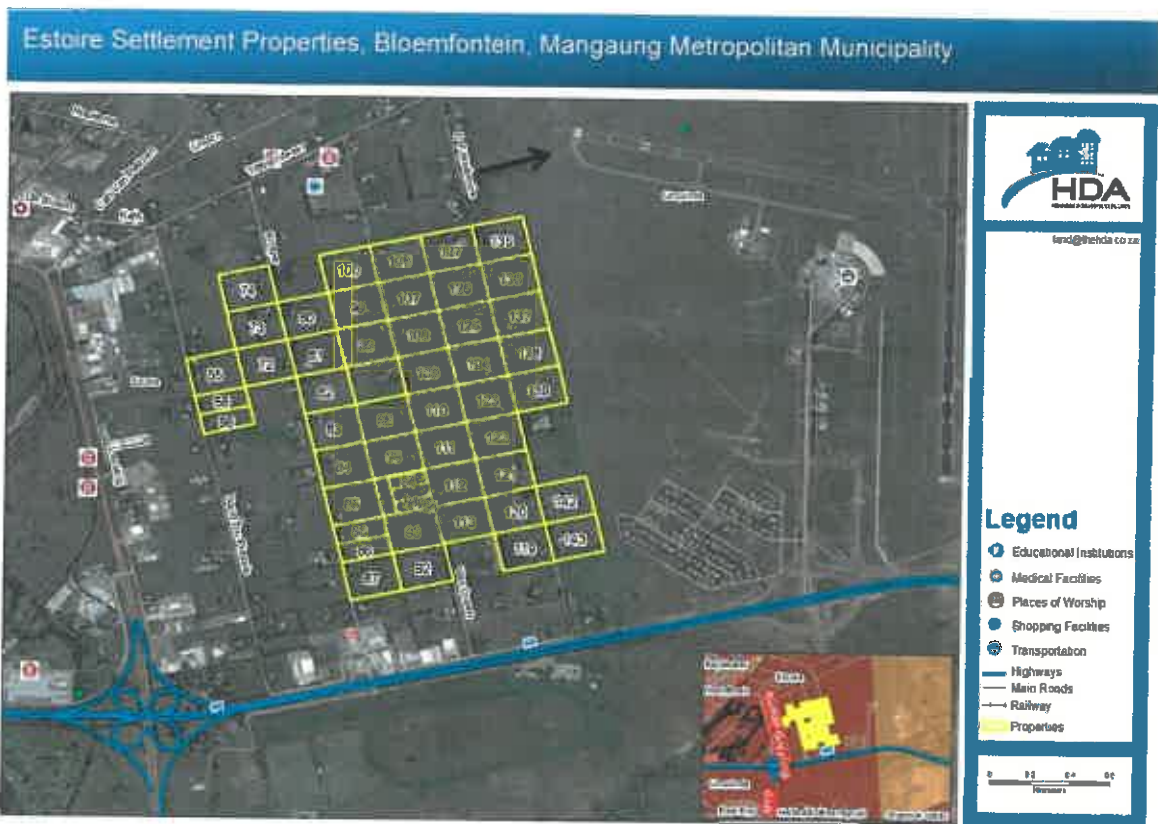

The N8 Corridor Development was identified as one of the catalytic restructuring elements for urban networking spaces, developments and footprint, and has been earmarked for multi-uses, which inter alia includes integrated human settlement development. The notion of inter-governmental support and alignment of programs as called for by the municipality in what has largely necessitated the need for this proposal. Estoire settlement is therefore ideally and strategically located along this N8 Development Corridor. Estoire settlements are located east of the CBD and west of the Bram Fischer Airport, along the N8 which goes to Thaba N'chu.

The Airport Node consists of two main phases, the first phase is the southern portion situated below the N8 Airport Interchange. The second phase is the Northern portion which is located around the north eastern boundary of the Bram Fisher International Airport. Phase 1 mainly consists of residential, retail, business and mixed land use zones. The residential areas are a mix of low, medium and high density sectional title units, with some full title units. The mixed land use consists of a mixture of residential, retail and business. Other land uses contained within the Airport Node are hotels and conference facilities; a hospital and clinics; places of worship; crèches, primary, secondary and tertiary educational facilities; government buildings; open green space and protected green space.

Phase 2 consists mainly of industrial with some residential, commercial, mixed-use, civic, educational, and medical facilities. The residential areas are a mix of medium and high density sectional title units. The commercial areas will be a mix of showrooms, retail, business and hotels. Phase 2 will be developed in stages, focusing on the light industrial and mixed-use areas to encourage interest from private developers. The intent is to develop and install bulk and link services for the Mangaung Metropolitan Municipality, to enable private developers to purchase properties within the Airport Node and connect their internal services to the link infrastructure. The interface between the developer's internal infrastructure and the link infrastructure will be managed by the municipality

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
