**Appraisals and Planning of Housing Delivery Pipeline Projects: 22 local municipalities

PROPOSALS TO BE SUBMITTED BY

1. INTRODUCTION

The Housing Development Agency (HDA) is a national public development agency established by an Act of Parliament (Act 23 of 2008). The HDA promotes sustainable integrated communities by making well-located land and buildings available for the development of housing and human settlements. As an organ of state, the HDA is accountable through its board to the Minister of Human Settlements. Visit www.thehda.co.za for more information.

In Limpopo the HDA has signed an implementation protocol with department of Cooperative Governance, Human Settlements and Traditional Affairs. One of the objectives in the Medium Term Operational Plan is to support the department in the implementation of a sustainable housing supply programme through a planning a housing delivery project pipeline. The HDA and department have identified land green-field and brownfield land parcels with potential for integrated housing development. Policy requires that all housing developments in new and existing settlements follow principles for integration and sustainability. This means that all housing projects must meet criteria for integration and sustainability in terms of existing and future human physical settlement structure, linkage, functionality, infrastructure, environmental and economy considerations. It follows from this that the task of planning a housing delivery project pipeline will involve urban planning contextual analysis, land assembly/analysis of identified sites, site planning and urban design analysis, on-site and off-site infrastructure services status quo and needs assessment, housing project/ business planning, and project programming to create sequencing or pipeline/supply chain of housing projects and housing delivery in integrated manner.

The housing delivery project pipeline aims at providing the department with a supply chain of sequenced ready-to-implement projects and a basis for annual and mid-term budgetary allocations and expenditure, as well as sustainable delivery performance. In order to achieve this objective, the HDA intends to utilize services of relevantly qualified and experienced professional service providers. The key skills and experience required by the HDA are in town planning, urban design, environmental planning, municipal/ infrastructure engineering, and human settlements projects/ business planning.

NB:An existing pipeline is available for review by the appointed service provider

2. BACKGROUND

From the National fiscus, funding for the implementation of housing projects flows directly to province for allocation to projects in Municipalities. In consultation with Municipalities, the HDA and the Department have identified potential housing sites for possible integrated human settlements project development and funding allocations over the MTEF period and beyond. Some of the identified project sites offer possibilities of getting services from

existing bulk infrastructure sources while some have full infrastructure reticulation and offer possibilities for on-site servicing and engineering design for housing construction.

The population growth coupled with increasing housing demand require that municipalities and province plan and invest appropriately in order to address current backlog and meet future housing and services needs and demand in an integrated and sustainable manner. The department and local municipalities require technical assistance to plan, develop a business and investment case, design and implement the housing delivery programme. The department and local municipality have identified potential sites for formulating a housing delivery project pipeline,

The project sites identified for integrated housing delivery programme falls within the five district municipalities in the Limpopo Province namely; Sekhukhune, Capricorn, Waterberg, Mopani and Vhembe.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
