### **1. INTRODUCTION**

The HDA is a national public development agency which promotes sustainable communities by making well located and appropriately planned land available for the development of human settlement. As its primary activity, the HDA assembles state, private and communal land and releases it for development. In addition, the HDA provides project delivery support services to organs of state at local, provincial and national level. Informal settlements upgrading and project management services are a particular focus of the organisation.

Currently the operations of the HDA include a national office/provincial office in Johannesburg and further provincial offices in Cape Town; Port Elizabeth, East London; Northern Cape; Limpopo; North West; Free State and Kwazulu Natal.

### **2. BACKGROUND INFORMATION**

- (i) The Housing Development Agency (HDA) is committed to providing, as far as reasonably practicable, a working environment that is safe and without risk to the health and safety of its employees.
- (ii) To this end, the HDA endeavours to comply with National, Provincial and Local legislation applicable to occupational health and safety management and the HDA further endeavours to comply with the requirements as identified by the hazard identification and risk assessment process.
- (iii) A Hazard Identification and Risk Assessment Standard was previously developed and a baseline hazard identification and risk assessment was conducted, however this needs to be upgraded and aligned to the new office premises and additional associated activities.
- (iv) Furthermore, the HDA is required to do an issue-based risk assessment for both office security as well as fire prevention and emergency evacuation.

The HDA Head Office and Gauteng provincial office recently moved premises and is required to update the baseline risk assessment previously conducted, as well as to conduct an issue based risk assessment for office security and fire.

### **3. OBJECTIVE OF THE PROPOSED PROJECT**

In terms of Section 9 of the Occupational Health and Safety Act every employer shall conduct his undertaking in such a way as to ensure, as far as is reasonably practicable, that persons other than those in his employment who may be directly affected by his activities are not thereby exposed to hazards to their health or safety.

- (i) By identifying the hazards and associated risks related to the activities undertaken by the HDA, and implementing management controls to mitigate the risks, the employer will be fulfilling his legal and moral obligations to employees.
- (ii) The procuring of specialist knowledge in the field will ensure suitable and effective management controls are implemented.

### **4. SCOPE OF WORK**

#### **PHASE ONE**

Using the HDA's current Risk Assessment Standard the service provider will be required to extend the current baseline risk assessment to cover all risks associated with the activities conducted at the HDA Head Office, inclusive of the risks associated with activities conducted by employees with communities in informal settlements and employees travelling to high risk HDA owned properties. The scope of work excludes work conducted on construction sites, but includes the risks associated with contracts in which liability is transferred in terms of Section 37.

- (i) All activities and their risks must be identified, and the risk quantified without management controls in place;
- (ii) Existing management controls are to be noted.
- (iii) The residual risk must then be quantified; and

- (iv) Where there is a lack of management controls to either terminate or mitigate the risks, these must be identified.

## **PHASE TWO**

Given the risk of office invasions a comprehensive security management plan as well as an evacuation plan needs to be developed in writing:

- (v) A physical walkthrough security assessment needs to be undertaken evaluating access to offices, access control, security guards, security equipment etc.
- (vi) The Heads of the Department for Land; Strategy & PPC as well as GADA need to be interviewed with a view to establishing the security risks attached to activities conducted on non-construction related sites.
- (vii) A written report incorporating suggestions for the improvement of security measures both in terms of resources and equipment needs to be submitted.
- (viii) A comprehensive security management plan to prevent access to offices needs to be developed in order to address office security / office invasions.
- (ix) An emergency evacuation plan needs to be developed to reduce the risk to employees in the event of an office invasion.
- (x) A security management plan needs to be established for non- construction related sites; and
- (xi) A training presentation needs to be developed on the security plan, as well as the emergency evacuation procedure.

## **PHASE THREE**

An issue-based risk assessment needs to be completed for fire. A physical walkthrough fire risk assessment needs to be undertaken evaluating whether or not the fire-fighting equipment is suitable both in terms of quantity, as well as for the class of fire likely to be encountered.

- (i) A comprehensive fire evacuation plan must be developed in writing.
- (ii) Fire evacuation directional plans must be drafted (landlord to supply office layout plans); and
- (iii) A training presentation needs to be developed on the dangers of fire; classes of fires; basic procedures for using a fire extinguisher, as well as the emergency evacuation procedure.

- (iv) A half-day training course is to be undertaken with all fire marshals and first aiders. This should include the use of fire extinguishers which are to be provided by the service provider.
- (v) Emergency evacuation awareness sessions are to be held with all employees (approx. 8 x 2-hour sessions).
- (vi) At least one security evacuation / fire drill to be carried out by the service provider, with a report provided on the results thereof.

All assessments: reports and training presentations will remain the property of the HDA and is to be provided in both hard copy, as well as soft copy.

The expected completion date is within five (5) weeks of appointment.

### **TARGETED AREA BY THIS PROJECT**

The project will cover all health, safety and security risks associated with activities conducted at the HDA Head office as well as a desktop assessment of all associated activities conducted at HDA owned properties and work conducted in communities in informal settlements by our Gauteng provincial office.
