8. GENERAL CONDITIONS

8.1. THE HDA'S TENDER FORMS

Bidders must sign and complete the HDA's Bid Forms and attach all the required documents. Failure by Bidders to adhere to this requirement may lead to their disqualification.

8.2. PRECEDENT

In case of any conflict with this RFP and Bidders response, this RFP and its briefing notes shall take precedence.

8.3. RESPONSE TO RFP-CONFIDENTIALITY

Response to RFPs must clearly indicate whether any information conveyed to or requested from the HDA is confidential or should be treated confidentially by the HDA. In the absence of any such clear indication in writing from a response to RFP, the HDA shall deem the response to RFP to have waived any right to confidentiality and treat such information as public in nature.

Where a Bidder at any stage during the RFP Process indicates to the HDA that information or any response to RFP requested from the HDA is or should be treated confidentially, the HDA shall treat such information or response to RFP confidentially, unless the HDA believes that to ensure the transparency and competitiveness of the RFP Process the content of the information or response to RFP should be conveyed to all Bidders, in which event it shall apply the following process:

- The HDA shall confirm with the Bidder whether the raising of confidentiality applies to the entire response to the RFP or only specific elements or sections of the response;
- Where confidentiality is maintained by the Bidder and the HDA is of the opinion that the information or response to RFP if made publicly available would affect the commercial interests of the Bidder or is commercially sensitive information, the HDA shall not release such information to other Bidders if providing such information or response to the RFP would prejudice the competitiveness and transparency of the RFP Process;
- Where the HDA is of the opinion that information provided is not commercially sensitive or would have no impact on the commercial interests of the relevant Bidder if released and

fairness and transparency requires that such information be released to all Bidders, the HDA may:

- i. inform the relevant Bidder of the necessity to release such information and/or response to RFP and request the Bidder to consent to the release thereof by the HDA; or
- ii. obtain legal advice regarding the confidentiality of the relevant information and/or response to RFP and the legal ability of the HDA to release such information; or
- iii. refrain from releasing the information and/or response to RFP, in which event the HDA shall not take account of the contents of such information in the evaluation of the relevant response to RFP.

Grounds for rejection	5	Consider rejecting a tender if there is any effort by a <i>tenderer</i> to influence the processing of tenders or contract award.
Disqualification	6	Instantly disqualify a <i>tenderer</i> (and his tender) if it is established that the <i>tenderer</i> offered an inducement to any person with a view to influencing the placing of a contract arising from this invitation to tender.
Test for responsiveness	7	Determine before detailed evaluation, whether each tender properly received <ul style="list-style-type: none"> • meets the requirements of these Conditions of Tender, • has been properly signed, and • is responsive to the requirements of the <i>tender documents</i>.
	8	Judge a responsive tender as one which conforms to all the terms, conditions, and specifications of the <i>tender documents</i> without material deviation or qualification. A material deviation or qualification is one which, in the HDA 's opinion would <ul style="list-style-type: none"> • detrimentally affect the scope, quality, or performance of the works, services or supply identified in the Contract Data, • change the HDA's or the <i>tenderer's</i> risks and responsibilities under the contract, or • affect the competitive position of other <i>tenderers</i> presenting responsive tenders, if it were to be rectified.
Non-responsive tenders	10	Reject a non-responsive tender, and not allow it to be subsequently made responsive by correction or withdrawal of the non-conforming deviation or reservation.
Arithmetical errors	11	Check responsive tenders for arithmetical errors, correcting them as follows: <ul style="list-style-type: none"> • Where there is a discrepancy between the amounts in figures and in words, the amount in words shall govern. • If a bill of quantities applies and there is a discrepancy between the rate and the line item total, resulting from multiplying the rate by the quantity, the rate as quoted shall govern. Where there is an obviously gross misplacement of the decimal point in the rate, the line item total as quoted shall govern, and the rate will be corrected. • Where there is an error in the total of the Prices, either as a result of other corrections required by this checking process or in the

tenderer's addition of prices, the total of the Prices, if any, will be corrected.

ANNEXURE 1: SCOPE OF WORK

1. INTRODUCTION

The Housing Development Agency (HDA) is a national public development Agency which promotes sustainable communities by making well located and appropriately planned land available for the development of human settlements. As its primary activity, the HDA assembles state, private and communal land and releases it for development. In addition, HDA provides project delivery support services to organs of state at local, provincial, and national level.

In the North West Province, the HDA has signed an implementation protocol with the North West provincial department of Local Government and human settlements. One of the objectives in the Medium-Term Operational Plan is to support the department with human settlements planning. Further to this, the HDA is required, to undertake any processes relating to approvals required for housing development and prepare the necessary documentation for consideration and approval by relevant authorities.

In collaboration with Kagisano Local Municipality and the North West Department of Human Settlements, the HDA is in the process of undertaking a municipal wide Land Audit and preparation of Development Plans covering the Kagisano Molopo's Spatial Development Framework (SDF). The study area to be covered for this project is the entire Kagisano Local Municipal area (Locality attached hereto as Annexure B). As part of the process to inform the development objectives of this project, the HDA intends to utilize services of an appropriately qualified and experienced built environment professional service provider to undertake land assembly and planning related work.

1. BACKGROUND INFORMATION

a. STATUS QUO

Kagisano Local Municipality in conjunction with North West Department of Human Settlements (NWDHS) are undertaking a process of developing Green Villages in priority municipal areas, implemented through a Development Plan programme. Land Ownership is pertinent to this exercise to determine the location of feasible land parcels/nodes for said Green Villages. The municipality requires a municipal-wide Land Audit to actualise the Green Village and Development Plan/Priority Human Settlements Housing Development Areas (PHSHDAs) programme in respect of development plan conceptualisation and implementation in priority municipal areas.

The Priority Human Settlements Housing Development Areas (PHSHDAs) have been declared in terms of Section 3 of the Housing Act (No.107 of 1997) read in conjunction with Section 7 (3) of the Housing Development Agency Act, 2008 (No. 23 of 2008), the Spatial Planning and Land Use Management Act (SPLUMA) (No. 16 of 2013), and the Infrastructure Development Act (No. 23 of 2014). The PHSHDAs intend to advance Human Settlements Spatial Transformation and Consolidation by ensuring that the delivery of housing is used to restructure and revitalize towns and cities, strengthen the livelihood prospects of households and overcome apartheid spatial patterns by fostering integrated urban forms.

The PHSHDAs Programme is a national spatial transformation approach to build a new, integrated, functional, and inclusive settlements. It draws on cooperative and collaborative public sector investments intending to leverage private investment against defined targets and objectives within a designated geographical area.

b. PROBLEM STATEMENT

The overall purpose of the project with regards to addressing the current project problem is as follows:

- To undertake a municipal-wide Land Audit (i.e., verification of land ownership, extent, property description, location, zoning, land claim status, current status quo of land parcels etc.)
- To produce a municipal-wide Land Audit database (i.e., database supported by spatial cadastral information)
- To produce Development Plans within identified priority areas in Kagisano Local Municipality, and
- To produce a Green Village Development Plan within identified priority areas in Kagisano Local Municipality.

The programme aims to use the delivery of housing for a broad range of typologies within integrated mixed-use developments in the identified municipal priority areas to address the following circumstances of priority:

- Areas of urgent housing need where there is an established high demand and low supply of housing opportunities.
- Areas requiring upgrading and/or redevelopment for purposes of delivering housing choices including subsidized housing; and

- Areas requiring improved access to infrastructure, amenities, and services
- Areas that support the integration of different housing typologies, land uses, and economic development.

Ultimately the impact must be a spatial transformation of undesirable settlement patterns emanating from past practices and creation of new human settlements, to transform entrenched spatial patterns which have historically exacerbated social inequality and economic inefficiency, to revitalize, renew and redevelop area post-apartheid spatial legacy, and to achieve municipal Green Villages within Kagisano Local Municipality, informed by the municipal-wide Land Audit.

c. PICTORIALS

The project will be implemented within the jurisdiction of the Kagisano Local Municipal area, **Figure 1.**

8. UNDERLYING PRINCIPLES

The proposed technical studies and project scope, having been informed by the various elements and other critical informants, should address the following:

8.1. Comprehensive municipal-wide Land Audit

8.2. Development Plan for priority settlements

NB: The HDA shall have the right to input and refuse the proposed studies and report if, in its opinion, the studies does not conform to standard planning practice and if the proposed studies does not meet the requirements of the Kagisano Local Municipality.

b. DETAILS ON THE PREFERRED SOLUTION

UNDERLYING PRINCIPLES

The objective of this project is for the appointed Professional Resource Team (PRT) to:

3.1. Conduct a comprehensive municipal-wide land investigation and audit in order to determine, the land that is owned by the Municipality in all its jurisdiction areas, as enthused among others by the following:

- Council not knowing the number of properties in its possession;
- Inaccuracy of information contained in the Municipal Valuation Roll against that which is held at the Surveyor General Office, Deeds Office and ArcGIS database;

- The Council wishes to generate more revenue with these properties as they are currently not in use and have potential for different economic activities, however a challenge exists as there is less certification pertaining to ownership.

This land audit ought to be conducted in all areas within the jurisdiction of the Kagisano Molopo Local Municipality for accurate results.

3.2. Make proposals on proposed priority areas and prepare a municipal-wide development plan, with implementation programmes. The development plans need to be informed by existing planning work, research, and available information, providing a credible platform through which the budget/funding can be streamlined and focused on specific outcomes. The final product would need to be signed off and adopted by Kagisano Local Municipality.

c. TARGETED AREA BY THIS PROJECT

The project will take place in all areas within the jurisdiction of the Kagisano Molopo Local Municipal region, in the Northwest Province.

d. EXTENT AND COVERAGE OF THE PROPOSED PROJECT

The project will cover the following areas:

The comprehensive municipal-wide development plan, land investigation and audit ought to be conducted in all areas within the jurisdiction of the Kagisano Molopo Local Municipality for accurate results.

e. OTHER RELATED PROJECTS

The following projects have been identified as related to this proposed project:

- Establishment of Green Villages in the Kagisano Molopo Local Municipality area (i.e., municipal-wide)
- Identification of Priority Development Areas (Establishment of PSHDAs in Kagisano Molopo Local Municipality)
- Land Audit GIS Database (i.e., property description, ownership, land status, zoning, development potential, land claims lodged, town planning compliance in progress etc.)

4. SPECIFICATION OF THE WORK OR PRODUCTS OR SERVICES REQUIRED

Include pricing schedule that is aligned to scope of work

Kindly note that this is not a product development project but rather a technical studies/investigation project as such, we consider only the scope of works and not product specification.
